ABOUT ME

I am a young developer passionate about technology and the world of web development, especially in the area of Frontend. Although I am still at the beginning of my career, I am constantly looking to learn, improve, and create functional and visually appealing digital solutions. I enjoy transforming ideas into concrete projects, combining creativity with logic.

EXPERIENCE

Technical Skills

- Programming: Python, Visual Basic
- Web Development: HTML, CSS, JavaScript (basic)
- Databases: Basic knowledge and structure
- Networks and Operating Systems: General understanding
- Hardware Maintenance: Cleaning, replacing components, thermal paste, and technical checklists

Professional Experience

Intern – JANS IT | June – July 2025

- Cleaning and maintenance of laptops and computers
- Keyboard replacement and application of thermal paste
- Performing technical checklists and providing support to the hardware team.

PROJECTS IN DEVELOPMENT

PAP – Professional Aptitude Test | 2025–2026

Development of a web application focused on productivity and integration of intelligent tools. Project involving Frontend, programming logic, and database.
